LANYARD

# OUR PRINTING METHOD

PRINTING METHOD	PROCESS	ADVANTAGES
<b>HEAT-TRANSFER PRINTING</b>	Multicolored, detailed designs created using heat transfer.	Smooth design, durable imprint that lasts.
<b>HOT STAMPING</b>	Metallic foil applied to the lanyard using heat and pressure.	Elegant and eye-catching.
<b>SILK-SCREEN PRINTING</b>	Fine mesh screen with customer's design used. One color at a time.	Quick mold creation, exact color matching.
<b>SILK-SCREEN EMBOSS INK PRINTING</b>	Creates raised designs with textured effects. Lanyard bottom color from dyed yarn.	Adds a unique touch.

# LANYARD

Do you want intricate details on your custom lanyard?  
Our Imprinted Nylon lanyards are perfect for that!  
They have a surface that works well with high-detail silk-screening.

These lanyards are thicker than our **Imprinted Polyester lanyards** and have a shiny appearance. If you need detailed logos or images, go for these!

# LANYARD

Our bestseller, the Imprinted Polyester Lanyard, is super strong and looks really polished because it's made from this tough polyester stuff. It's got a little shine that makes it look extra nice. You can even put pictures and words on it using Silk Screen or Transfer Printing, and they won't fade away, no matter how much you use it.

## WOVEN LANYARD

## Woven Lanyards –

they're super strong and built to last! These top-notch lanyards feature a satin ribbon woven with your design, securely stitched onto a polyester base. Using Jacquard weaving, your design is intricately woven into the fabric using an advanced automated method.

## PRINTING DETAILS

**Jacquard weaving is an automated method of raising and lowering yarn on a loom to produce design.** ✨
